KABINKU

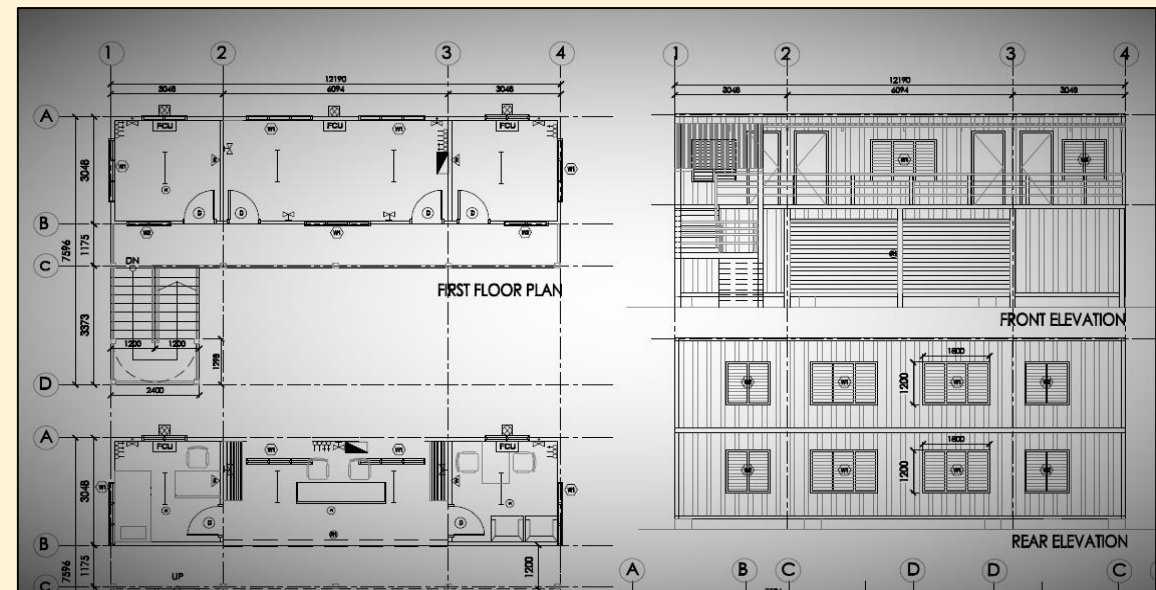

We provide decent quality **new and used** portable cabins and containers of **all types and sizes**.

All our portable cabins are **strong, durable** and built to exceptionally **high standards**.

We have list of readymade designs to choose from or work with you for **customized design** to your need.

We provide both new manufactured portable buildings in the colour of your choice and to your specific layout requirements and portable office cabin buildings that represent excellent value for money.

Basically, there are 3 types of cabins / containers:

1. Light-Duty Cabin

- External material (wall) : 0.23-0.45 mm corrugated metal deck
- Structure component : Light steel
- Suitable for short to medium term use such as construction site office

2. Heavy-Duty Cabin

- External material (wall) : 0.5-1.0 mm corrugated metal plate
- Structure component : Steel and Mild Hollow Steel
- Suitable for medium to long term use such as storage cabins, guard house etc.

3. Shipping Container

- External material (wall) : 1.6-2.0mm corrugated metal plate
- Structure component : High-strength thorsten steel
- Suitable for long term and rugged use such as resort, homes, high security storage

Value for money, high specifications included as standard features

- Partition walls if required to create individual rooms and privacy.
- Electric specification to suit your requirements.
- Energy efficient design.
- High quality environment for the comfort of your employees.

- Fluorescent lights complete with diffusers.
- RCD consumer unit, electrical test and certificate.
- Your choice of floor coverings.
- Good finished steel work.

- Fixed and portable cabin ramps and stairs.
- Heavy duty iron grill for doors, windows, ventilators and air-cond compressors.

- Reliable transportation, crane services and logistics solution.
